

RIDGID®

PEX-One™ 12V Battery PEX Tool

The RIDGID® PEX-One™ 12V Battery PEX Tool is designed for contractors who repair or install PEX plumbing systems. The lightweight, low-profile PEX-One presses multiple-size connections, up to one inch, with a single tool. The RIDGID PEX-One gives you the one-handed functionality you need for easy and accurate press connections in tight or hard-to-reach spaces.

- One-Handed Operation – The quick-acting thumb lever opens the tool to connect the PEX-One to the fitting and completes the press cycle with one hand, leaving your second hand free to support and guide the connection
- Access Tight Spaces – The compact and lightweight inline design, complete with fastening hand strap makes working overhead as well as in tight spaces easier than with manual tools
- Multiple-Size Connections – Interchangeable dies allows the PEX-One to press ½", ¾" and 1" fittings, freeing up tool storage space
- Full Power Charge – The PEX-One operates at full power through 150+ crimps on a single charge

SPECIFICATIONS

- Capacity ½" – 1" (PEX)
- Compatibility ½"-1" ASTM F1807 and Viega® PureFlow™ fittings
- Power 12V Advanced Lithium 2.5 Battery
- Weight 5 lbs. (Tool Only)
