

## DISPOSERS

### Model 17®

#### No Wall Switch Required

Our most unique disposer, the Model 17 operates only when the drain cover is inserted. And since no wall switch is required, installation is quick and easy. Sometimes called "batch feed", this durable disposer also offers your customers these features and benefits:

- Rugged stainless steel construction to prolong life
- Permanently lubricated bearings to ensure smooth operation
- 3/4 HP Dura-Drive induction motor to provide efficient operation
- Insulated outer shell to help ensure quiet performance
- 5-year In-Home Service Warranty

### Septic Disposer®

#### The Best Food Waste Disposer for Homes with Septic Systems

Only Septic Disposer features injection technology with Bio-Charge™ treatment. Every time the disposer is activated, Bio-Charge is injected into the grind chamber. Bio-Charge is a fresh, citrus-scented solution featuring natural microorganisms that help break down food waste. This model also offers your customers these features and benefits:

- 3/4 HP Dura-Drive induction motor to provide efficient operation.
- 3-year In-Home Service Warranty

### 777ss®

#### Our Quietest and Most Powerful Disposer

Featuring over 30% more power than any other model, our 777ss is our quietest and most powerful disposer. The 777ss also features nearly twice the grinding capacity of other models and auto-reversing at start-up to help prevent jams. This model also offers your customers these features and benefits:

- Rugged stainless steel construction to help prolong life
- 1.0 HP Dura-Drive induction motor to provide efficient operation
- Insulation outer shell and secondary sound baffle to help ensure ultra-quiet operation
- 7-year In-Home Service Warranty

### 555ss®

#### Large Capacity Handles Large Kitchen Cleanups

Perfect for large families, our 555ss model features extra large grinding capacity and a tough 3/4 horsepower Dura-Drive induction motor. This model also offers your customers these features and benefits:

- Rugged stainless steel construction to help prolong life
- 3/4 HP Dura-Drive induction motor to provide efficient operation
- Insulated outer shell to help ensure quiet operation
- 5-year In-Home Service Warranty

### 444™

#### A Great Choice For Great Value

Our 444 models offer your customers premier performance at a practical price. Designed for typical kitchen cleanups, this popular disposer features standard grinding capacity and a 3/4 horsepower Dura-Drive induction motor.

This model also offers your customers these features and benefits:

- Rugged stainless steel construction to help prolong life
- 3/4 HP Dura-Drive induction motor to provide efficient operation
- Insulated outer shell to help ensure quiet operation
- 4-year In-Home Service Warranty

### Badger® 5 Plus

#### Our Best Badger Disposer

Our Badger 5 Plus model features all of the reliability of the Badger brand and more. This model provides more power and a longer warranty than the Badger 5 or Badger 1.

This model also offers your customers these features and benefits:

- Rugged steel construction to help prolong life
- 5/8 HP Dura-Drive induction motor to provide efficient operation
- A sound reduction system to help ensure quiet operation
- 3-year In-Home Service Warranty

### Badger® 5

This popular model is great for new disposer users and offers your customers these features and benefits:

- Standard grinding capacity
- 1/2 HP Dura-Drive induction motor to provide efficient operation
- 2-year In-Home Service Warranty

### Badger® 1

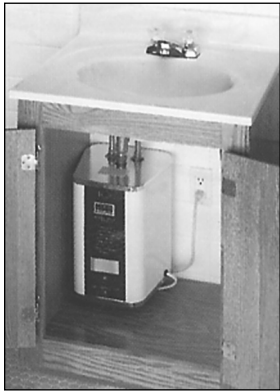

This model is a reliable workhorse and offers your customers these features and benefits:

- Standard grinding capacity
- 1/3 HP Dura-Drive induction motor to provide efficient operation
- 1-year In-Home Service Warranty

**WATER HEATERS, DISPENSERS, DISPOSERS**

**The point-of-use water heaters you'd expect from In-Sink-Erator.**

*For offices, shopping malls, service stations and other light commercial applications where economical, utility hot water is needed.*

Our 2 1/2 and 4-gallon water heaters are the economical solutions to expensive "long runs" from a central water heating source.

**Big on speed.** These electric storage type water heaters have a 1,500 watt heating element that offers a super fast recovery rate. They quickly provide an ample supply of economical hot water. And can be easily installed

anywhere there's a standard 120 volt outlet.

**Big on quality features.** The tanks are made of corrosion-resistant bronze, wrapped in expanded polystyrene, then jacketed in steel for maximum heat retention and lower standby heat loss.

*Two more quality water system products from the leading name in the plumbing industry*

**Specifications**

- Tank Construction: Brass.
- Tank Volume:
  - W-152: 2 1/2 U.S. gallons.
  - W-154: 4 U.S. gallons.
- Voltage: 120 v.
- Heating Capacity: 1500 watts.
- Element Type: Replaceable cartridge type.
- Temperature Range: 110°-170°F.
- Factory Re-Set: 120°F.
- Operating Pressure: 150 psi (max).
- Thermal Cut-Out: Resettable.
- First Hour Rating (80°F Rise):
  - W-152: 8.6 gal.
  - W-154: 10.4 gal.
- Water Connections: 1/2" NPT female.
- Pressure Relief Connection: 3/4" NPT female.
- Overall Dimensions:
  - W-152: 13.5"H x 10.4"D x 10.7"W.
  - W-154: 20.2"H x 10.4"D x 10.7"W.

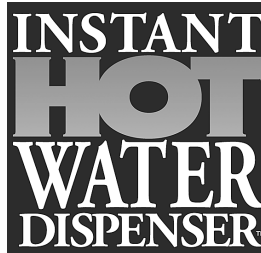

**Model W-152**

**Model W-154**

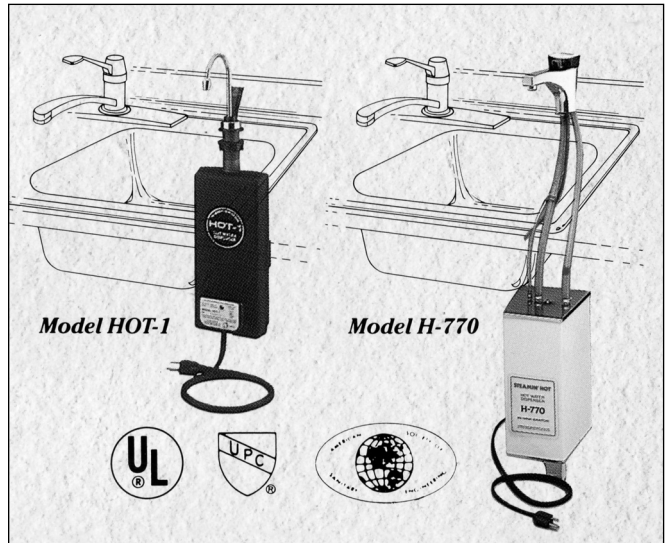

**Make Instant Foods Instantly.**

**Specifications**

- Electrical: 120 volts A.C., 500 watts, 4.3 amps.
- Thermostat: Snap-action, adjustable from 160°F to 200°F (factory preset at 190°F/88°C).
- Valve: Instant self-closing.

**Remember, our express will call service is available from 7:30 a.m. to 4:30 p.m. daily. Call ahead and your order will be packed and waiting for you when you arrive.**
