

ACID WASTE SYSTEMS

ENFIELD®

LABLINE™

NEUTRATANK™

FLOWAY™

For more than 20 years, IPEX has provided laboratories throughout North America with complete acid waste systems designed to take a variety of chemicals. Pour it, flush it or dump it—from school labs to industrial labs, **Enfield®** and **Labline™** polypro acid waste systems are built to handle it.

Since their introduction, **Enfield®** electrofusion fittings and **Labline™** mechanical joints have revolutionized the industry—and they continue to be regarded as state-of-the-art. **Enfield®** offers the premier polypro fusion fittings available today, constructed with a heavy-gauge resistance wire intergrally **molded** into the socket. **Labline™** features our new no-heat **Elastolive**

for quicker installation and higher performance.

IPEX's broad range of products and systems for acid waste includes **Enfield®**, **Labline™**, **NeutratanK™** neutralization tanks, **Neutrasystem2™** pH monitoring and **Floway™** drains.

ACID WASTE SYSTEMS

PIPE	ENFIELD®	LABLINE™
Schedule 40 Black PP	1-1/2"-12"	1-1/2"-12"
Schedule 80 Black PP	1-1/2"-12"	1-1/2"-12"
Schedule 40 FR Green	1-1/2"-12"	1-1/2"-12"
FITTINGS		
FR	1-1/2"12" molded	1-1/2"-4"
Black	1-1/2"-12"	
	NEUTRATANK™	FLOWAY™
PP Cylindrical	1gl-2000gl	2"-6"
PP Rectangular	1gl-670gl	
PE Cylindrical	1gl-2000gl	
PE Rectangular	1gl-670gl	

Also available is our Neutrasystem2 pH monitoring system

DOUBLE CONTAINMENT SYSTEMS

	GUARDIAN	ENCASE™	CUSTOMGUARD™
PVC	1-1/2"x2"-12"x18"	N/A	N/A
CPVC	1/2"x2"-12"x18"	N/A	N/A
PP	N/A	1-1/2"x4"-8"x12"	N/A
Dissimilar Materials	N/A	N/A	1/2" x 2"-20" x 26"

Also available is Centra-Guard™ leak detection system

PLASTIC PIPE, VALVE AND FITTING

Your industrial specialist.

Imagine. Every plastic pipe, valve or fitting you need for any industrial project available from one reliable, accountable source. Only IPEX offers complete PVF systems for process piping, double containment, high-purity, acid waste and compressed air systems, designed, manufactured and backed by one company. You can be confident that your IPEX system is engineered and produced to the strictest quality, dimensional and performance standards.

enpure™ High Purity Polypropylene System

For 50 years, **Enpure™** has proven to be one of the most complete and dependable pure-water thermoplastic piping systems available. From the manufacturing of cosmetics to solutions for medical use; from pure-water lab applications to dialysis machines, **Enpure™** is designed to meet all challenges. Manufactured with FDA approved materials, **Enpure™** natural polypropylene pipe, valves and fittings eliminate the potential of contamination of your pure process. And, unlike conventional systems, **Enpure™** is designed as a socket fusion system. No hazardous chemicals are used for joining, making connections as "clean" as any other components in the system.

guardian

Vinyl Double Containment System

Certain environments demand *fail-safe* systems. The double containment professionals at IPEX understand the complexity of design and installation for demanding double containment applications. For the past 15 years **Guardian** systems have been the benchmark in double containment. Guardian's patented **Centra-Lock™** design requires up to 40 percent fewer joints. **Guardian** systems are available in tough industrial grade PVC and even tougher high-temperature CPVC.

encase™ PP Double Containment System

Encase™ has set the standard for acid waste double containment systems. At the heart of our patented **Encase™** polypro system is its electrofusion fitting with a ground-breaking heavy-gauge resistance wire **molded** into

the socket. The result is a premier off-the-shelf system that offers considerable reduction of installation time and the highest quality bubble-tight joints available.
