

TRUEBRO UNDERSINK PIPE COVERS

The original ADA-engineered, designer-style protective undersink drain piping and angle valve supply covers.

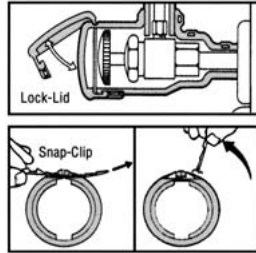

General Description

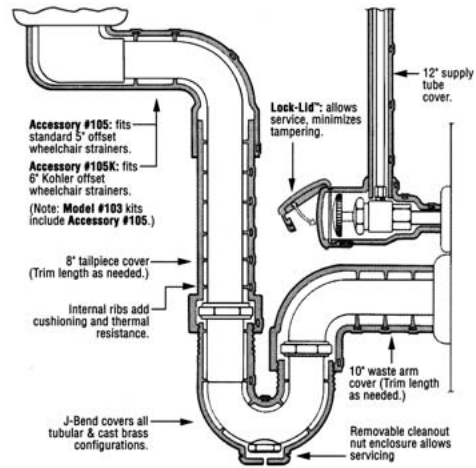

The LAV GUARD undersink protective pipe cover is the "original" high-quality ADA piping protection system, proven at thousands of facilities across the USA. The designer-style, highly-durable LAV GUARD is soft and flexible, universally adaptable to any 1-1/4" or 1-1/2" P-trap/tailpiece assembly and 3/8" or 1/2" angle stop valve assembly.*

Features and Benefits

- **ADA-conforming design protects wheelchair users from scalding and sharp, abrasive surfaces.** LAV GUARD protective covers have excellent insulation properties while maintaining a smooth, non-abrasive surface.
- **Rotatable, flexible design makes on-site adjustment and installation easy.** The LAV GUARD allows for on-site fitting to meet unexpected jobsite conditions and unusual piping configurations (see diagram). The LAV GUARD is easy to install. No trap disassembly is required.
- **Patented Lock-Lid™ covers angle stop valves while allowing for convenient servicing.** The hinged Lock-Lid is molded into the angle stop valve cover, and latches shut-minimizing tampering.
- **Unique, patented Snap-Clip™ reusable fasteners simplify installation and servicing.** New flush, non-abrasive fasteners install in seconds, are self-trimming leaving no sharp edges, and are tamper-resistant.
- **Internal rib design maximizes safety.** Compared to other pipe covers on the market, the LAV GUARD internal rib design increases thermal resistance and provides soft, resilient cushioning (see diagram).
- **Easy-to-clean, antimicrobial vinyl minimizes maintenance.** The LAV GUARD is molded from impact-resistant, stain-resistant, antimicrobial vinyl. Its smooth surface makes the LAV GUARD exceptionally easy to clean and maintain.
- **Variety of models, colors, and accessories assure the right product for your needs.** The LAV GUARD is available in 2 colors, grey or white, and in 2 series, #100 series for tubular p-traps and #400 series for schedule 40 ABS or PVC p-traps.
- **Strict code compliance minimizes risk.** The LAV GUARD complies with ADA article 4.19.4, California P 1504B, ANSI A117.1, BOCA P 1203.4, New York and other state and local regulations.

Cross-Section View

Gray and White Models Available

#100 series for tubular p-traps
 #400 series for schedule 40 ABS or PVC p-traps

#99	one angle valve and one supply tube cover
#400 #100	one P-trap cover
#401 #101	one P-trap cover, one angle valve, and one supply tube cover
#402 #102	one P-trap cover, two angle valve covers, and two supply tube covers
#403 #103	one P-trap cover, two angle valve covers, two supply tube covers, one 5" offset tailpiece wheelchair strainer cover
#103K	same as #103 with one 6" Kohler offset tailpiece wheelchair strainer cover
#105	Accessories one 5" offset tailpiece wheelchair strainer assembly
#105K	one 6" Kohler offset tailpiece wheelchair strainer assembly
#EX99	Extensions one 16" extension for supply
#EX100	one 16" extension for waste arm or tailpiece

Specifications

Material	Molded closed cell vinyl
Nominal Wall	1/8 inch
Durometer	60-70 Shore A
Finish	Smooth high gloss
UV Protection	Will not fade or discolor
Durability	Virtually indestructible
Fasteners	Reusable snap clips included
Color	Light gray or china white
Compatibility*	Fits all 1-1/2" or 1-1/2" cast brass or tubular P-trap assemblies and 3/8" or 1/2" angle stop assemblies
Paintability	Apply acrylic enamel
Flame Characteristics	(ATB), 0 sec
ASTM D 635	(AEB), 0 mm
Thermal Conductivity	K value of 1.17 plus dead air space
Bacteria Resistance	Antimicrobial vinyl formula
